

# WE'LL HELP KEEP THE WA ECONOMY GOING

The world is facing a challenge. But in Western Australia, the resources sector is working closely with Government to ensure our operations continue. We want to support WA during this crisis and then help with the recovery. The resources sector will do everything it can to keep the State economy going to allow essential services such as our hospitals to stay operating.

**Together, we will get through this.**

**THE RESOURCES  
SECTOR**
